Who will guide me? With a professional K7 Guide or Instructor, whether you are snow camping, ski touring, back country boarding in the spring, snow shoeing, kite skiing or trying your hand at Ski Mountaineering with harnesses, crampons and ice tools, you will find yourself in very safe and experienced hands. Take our professional mountaineers Andrew Lock and Zac Zaharias - how much experience do you want? We have it in our team! We love our alpine world in any season. We have a conscious practise of 'leave no trace in the mountains' to keep our mountains cool, clean and intact. We want you to enjoy the mountains as they are and we will guarantee you can do so safely! Please note, that natural environments do have inherent risks - we can **manage ourselves** within alpine world - however we can't control the environment or the weather. We plan around the weather and snow conditions.

Please be aware that your trip may be postponed if the weather conditions are too extreme.

We reserve the right to do so for the sake of your personal safety.
